General recommendations:

Text:

1. Please use Times New Roman font, size 12, single-spaced, A4 format (.doc, .docx or .rtf file).
2. Every paper should have an abstract and a list of keywords in Romanian and English (as well as in the language of the paper, if this language is not Romanian).
3. In the case of larger studies (over 15 pages), to facilitate the presentation, the author can divide his text on chapters and subchapters, highlighted by numbering and/or subtitles.
4. Authors are asked to mention their institutional affiliation and the email address.

Footnotes:

1. Footnotes should be concise and numbered continuously.
2. References will include the author's name, year, page (e.g., Suceveanu 2009, p. 175). In case of two or more works of the same author published in the same year, the distinction will be made by adding a letter (e.g., Gill 1988a; Gill 1988b). For papers/volumes with 4+ authors, after the name of the first author should be added *et alii*.
3. We suggest the use of the abbreviations as listed in previous issues of *Studii și Cercetări de Istorie Veche și Arheologie* (see also SCIVA 46, 3-4, 1995).

References:

The list will contain two columns. The first one will mention the name of the author(s) and the year of publication. The second column will highlight the complete citation of the submission, mentioning in order: the surname (abbreviated by the initial) and name of the author(s), the title of the paper, the place of publication, the year. The list will be organized alphabetically, by the name of the author/first author.
